two working as one
INTRODUCING
DUO GROUP HOLDINGS

OFFERING YOU THE TOTAL SOLUTION

Founded in 1981, Powerscreen Washing Systems was an independent dealer in England and Wales for Powerscreen aggregate washing equipment. After establishing ourselves as a successful dealer and with huge growth and success we are now Duo Group Holdings Ltd and can offer you the total solution for all your operational needs.

As Duo Group Holdings Ltd, we can offer you solutions for numerous industries including, but not limited to, quarrying, aggregates, recycling, materials handling, logistics and construction.

With over 35 years’ experience we are experts in our fields, from washing both virgin and recycled materials to water and silt management technologies that support the washing process. From crushing and screening equipment to mobile plant sales and rental.

CONTACT US NOW FOR ALL YOUR PROCESSING, CIVILS AND PLANT NEEDS.

Duo Manufacturing
DUO DIVISIONS

**DuO Operations & Processing**
Offering a unit cost processing of full aggregate production. Mobile plant sales and rental business with civil engineering and earthworks for your every need.

**DUO EQUIPMENT**
Supplying quality equipment to deliver complete turnkey projects for the aggregate industry.

**DUO MANUFACTURING**
In-house manufacturing facility allowing us to provide a total turnkey solution tailor made for you.

**ROLTECH**
Specialising in design, fabrication, installation, and site services in the materials handling industry.
DUO AFRICA
The official Powerscreen and Terex representative selling equipment and support across the African region

SEOUL
Sales, service, rental, contract hire and parts for Doosan construction equipment for UK national and key account customers

STAR HEALTH & SAFETY CENTRE
Stop, Think, Assess Risks Offering you up-to-date H&S solutions for your operation
GREENFIELD SITE - INSTALL ASSOCIATED INFRASTRUCTURE ➔ PROCESS/EXTRACT YOUR MATERIAL AND ADD VALUE TO IT ➔ SUPPLY YOU WITH EQUIPMENT RENTAL TO SUPPORT THE LIFE OF THE CONTRACT ➔ ONCE THE CONTRACT IS COMPLETE WE WILL RESTORE THE LAND BACK TO ITS ORIGINAL STATE
Duo is made up of four key operations that ensure the work your company is carrying out is as easy as possible.

**EQUIPMENT RENTAL**
Mobile plant rental business, providing flexible solutions on medium and long term contracts.

**PROCESSING**
Offering a unit cost processing of full aggregate production.

**EXTRACTION PROCESSING**
Waste Recycling, Logistics, Construction, Civil Engineering

**EARTHWORKS & RESTORATION**
Providing you with load and haul options, restoration, soil stabilisation, waste, drainage, ground work, formations, utilities and logistics.

**CIVIL ENGINEERING**
Specialising in road building, landfill and waste management, land drainage and utilities installation, commercial land development and flood protection.

“WE ARE THE UK LEADING SPECIALISTS IN OUR FIELD”

**OUR HISTORY**
**ESTABLISHED IN 1981 (DUO MINERAL PROCESSING)**
**DENBOW INTERNATIONAL ESTABLISHED IN 2008**
**MOBILE PLANT RENTAL BUSINESS OFFERING MEDIUM TO LONG TERM CONTRACTS**

“WE CAN PROCESS YOUR MATERIAL TO THE HIGHEST POSSIBLE VALUE”
EQUIPMENT RENTAL

OUR PRODUCT RANGE

SUPPLYING A BESPOKE SOLUTION THAT FITS YOUR NEEDS TO DELIVER THE PRODUCTIVITY AND PROFITABILITY YOU REQUIRE

EQUIPMENT RENTAL

Machines are delivered to you onsite all with pre-delivery inspections. We currently have a fleet of over 200 modern machines all younger than 4 years old, giving you the latest in technology and reliable equipment. We have nationwide coverage with a highly skilled team of engineers located across the UK.

We are a Health & Safety driven company ensuring complete compliance for your peace of mind.

OFFERING YOU MID TO LONG-TERM CONTRACTS ON ALL SPECIALIST EQUIPMENT

SPECIALISING IN THE FOLLOWING INDUSTRIES:

QUARRYING & MINING
WASTE TIMBER
PORTS & MARINE
ENERGY RAIL
We offer a comprehensive Unit Cost Processing facility that reduces the strain on your resources. Our packages are tailored to suit your operational needs, we will take full responsibility of production volume and quality. Unit Cost Processing works on a fixed price per tonne, which means there are no surprise costs enabling you accurate financial planning.
EARTHWORKS & RESTORATION

MAKING EARTH WORK
When projects need to be turned around on-time and on-budget, rely on the in-house specialist capabilities of Duo's Earthworks & Restoration team.

THE RIGHT SKILLS FOR THE JOB
Our team of industry professionals can lend their expertise in areas including surveying, supervision and design. With qualified technical engineers on board, we can offer clients solutions to unexpected problems, collect essential data and calculate results.

SAFETY FIRST
Placing health, safety and environmental protection as paramount, all the contract work we perform is carried out to the very highest standards, under guidance from the STAR Health and Safety Centre.

TICKING ALL THE BOXES
Delivering high quality plant machinery, together with the option to include operational expertise from qualified staff, we can fulfil on projects requiring:

LOAD & HAUL
RESTORATION
SOIL STABILISATION
WASTE

GROUND WORKS FORMATIONS UTILITIES

LOGISTICS
With vast experience across various civil engineering sectors, the Duo Civil Engineering team can provide the extra support your project needs to ensure it stays on-time, within budget and to your required specification.

Making civil engineering easy by setting out and managing design and testing of works. We are able to manage both large and small sites, and have extensive experience undertaking and managing works in environmentally sensitive areas. We can liaise and coordinate works in compliance with regulatory and project stakeholder requirements.

We can supply the engineering expertise, quality plant equipment and qualified machine operators to fulfil:

**INFRASTRUCTURE**
New road, rail and motorway construction. Road widening and marine schemes, landfill and waste management, construction of new facilities, capping and restoration of completed facilities.

**DRAINAGE AND UTILITIES INSTALLATION**
Installation of new stormwater and foul water pipelines, gas pipelines and land drainage.

**COMMERCIAL LAND DEVELOPMENT**
Remediation of brownfield sites and development of green field sites.

**FLOOD PROTECTION**
Coastal erosion measures with coastal protection and the management of dredge material on land.
Seoul Ltd is your National Partner for sales and service of Doosan construction equipment in the UK.

Our experience in the quarrying, aggregates and construction industries is unrivalled and through our wider Duo Group Holdings, we can offer unique tailored solutions that will deliver operational and cost-saving efficiencies to your operation.

Located within a 6-acre site in Meriden, Coventry, Seoul has a state-of-the-art 1080m² 4-double bay workshop facility, complete with dedicated wash bay, inspection pit, welding, refurbishment and PDI centre.

We provide you with the right solution for your operation and deliver the highest levels of service support across the length and breadth of the UK.

- A highly skilled team of engineers
- Bespoke flexible finance solutions
- Next day delivery on all genuine Doosan parts
- Over 75 years industry experience
- Supplying tailored solutions to meet your needs
- Using the latest Doosan models and technology
- Proactive KPI management
Crawler and Wheeled Excavators - 13 – 52 tonne
Doosan excavators provide the ultimate in productivity and satisfaction coupled with peerless excavation capability, high performance, great fuel efficiency and simple control.

Wheel Loaders - 1.9 – 6.4m³ bucket capacity
Doosan wheel loaders deliver exceptional power and speed, essential requirements for the work conducted under very difficult conditions, while high quality and advanced durability guarantees the best operation rates.

Articulate Dump Trucks - 30 and 40 tonnes
Doosan articulated dump trucks guarantee stable and powerful driving performance and unrivalled productivity, thanks to its ability to move its wheels vertically by up to 40 degrees for better ground contact.

Parts & Service
We understand that service is the most important factor in keeping your operation running and we have a team of highly skilled engineers ready to service your equipment minimising your downtime.

We also have a dedicated parts department offering you next day delivery on all genuine Doosan parts.
Our plants incorporate some of the best aggregate production products in the world
Powerscrub logwashers
Rinsing screens
Finesmaster sand plants
Mobile wash plants

Static jaw, impact and cone crushers
Static horizontal and inclined screens
Modular crushing and screening equipment

Filter presses
Centrifuges
Thickener systems
Flocculent systems

A vast range of conveyor systems to suit:
- Stockpiling
- Rail Loading/Unloading
- Ship Loading/Unloading
- Ground conveyors
- Overhead Tripper systems

In-house manufacturing allows us to provide a tailor-made solution for you, using the highest quality equipment and systems with operator safety on the forefront.

Our in-house manufacturing facility allows us to provide a total turnkey solution tailored made for you.
Duo Africa is the official Powerscreen and Terex representative selling equipment and support across the African region. We have an extensive range of spare parts readily available from our Depot based in Ghana. All our engineers are trained to a UK standard and can provide a full maintenance and after sales package including onsite support.

“Minimise your input with Duo and let us maximise your output”

VISIT OUR OFFICE IN GHANA TODAY
**POWERSCREEN**
Crushing and screening equipment and bespoke packages available.

**SPARES & SERVICE**
Supplying a full range of genuine parts for Terex and Powerscreen equipment. Fully stocked Parts Depot based in Accra, Ghana for quick and reliable deliveries, minimising downtime. Fully trained engineering team on hand to provide preventative maintenance and breakdown response.

**TEREX MINERAL PROCESSING**
Pre-designed static and semi-static ‘plug & play’ modules. Modular crushers and screens are designed to be easily transported and produced to allow a quick set up time.

**CONVEYOR SYSTEMS**
A vast range of conveyor systems to suit:
- Stockpiling
- Rail Loading/Unloading
- Ship Loading/Unloading
- Ground conveyors
- Overhead Tripper systems
In-house manufacturing allows us to provide a tailor-made solution for you, using the highest quality equipment and systems with operator safety on the forefront.

**AGGREGATE, MINERAL & ORE WASH PLANTS**
**TEREX Washing Systems**
Washing experience in Africa includes installations in the Democratic Republic of Congo, Mozambique and Tanzania. In-house design team producing visuals to show plant layouts and showing you how we have designed the material flow for maximum efficiency.

**PRE-USED EQUIPMENT**
Fully refurbished machines available. Supplying quality pre-used, washing, screening and crushing equipment. Including Jaws, cones, impactors and screens.

**HIRE & CONTRACTING**
All of our extensive range of machines are available for either long term or short term rental.
“Whatever your processing requirements we can help”
Duo Manufacturing provides a complete package from initial design to manufacture, installation and full project support, all of which is delivered by working to the highest levels of safety.

Whether your bespoke design requires hoppers, conveyor systems, structural steel work, chutes or walkways, we can help.

**BULK HANDLING SYSTEMS**
**ASH RECYCLING PLANTS**
**DRY RECYCLING**
**QUARRY PLANTS**
**ENVIRONMENTAL**
**MRF MANUFACTURE**
**CONVEYING SYSTEMS**
**BESPOKE DESIGN FACILITY**

In-House capabilities:
- Technical product design
- 3D design
- CE marked products
- Structural calculations
- Highly flexible product options
- Non-standardised projects can be delivered
- Your unique specifications can be included in the build
- Full In-house control over delivering your project

**Our In-House manufacturing gives us the flexibility to tailor our processing plants to meet your specific requirements.**
Designing the correct material flow for your plant. Incorporating the equipment that will help you achieve your production targets. Our bespoke manufactured products complement our OEM’s equipment.

We are able to design your plant with longevity in mind, by using components that minimise wear reducing your repair and maintenance costs.

Our products are always designed with safety in mind, but if you have any special site requirements such as guarding, walkways, handrails, and emergency stop controls, then we can help.

Provider of engineering and Installation solutions for Quarrying, Recycling, Rail, Roads, Maritime & Water Systems. Covering all design and implementation of all manufactured equipment for site installations and remedial works. From design, procurement, construction, commissioning and handover of the project to you our valuable customer.

Making your plant manageable and highly productive. Designing and constructing not just for operating the plant but also for easy, low-cost maintenance.
Our training program includes health & safety, personnel improvement and a rolling apprentice scheme for young engineers.

**Experience, Expertise, Excellence**

Our area of expertise is in design, fabrication, installation and maintenance of material handling plants. We provide turnkey solutions to your crushing, shredding, screening and recycling needs, with a full design team to fill your exact requirements.

As well as building and commissioning new plants, we provide modification, refurbishment and repair service.

Roltech have a wealth of knowledge and expertise in quarries, factories, bio-energy plants, recycling and water treatment plants.

Roltech offers full on-site service using skilled and trained operatives, to carry out work with quality equipment, competency certification for all personnel and safety documentation to current British safety standards. At Roltech we have the staff and expertise to act as principle contractor, to carry out project work conforming to CDM principles.

Based in Newcastle under Lyme, we have a team of over 80 personnel, managing engineering design, project management, production control and installations. Housing a 25,000m² workshop for in-house fabrication, which includes a 25 tonne single lift capacity and separate shot blasting and painting facilities, situated on a 2.5 acre site.
International Construction Equipment is our global supplier of new and used washing, crushing and screening equipment. With a range of quality pre used equipment from static to mobile jaws, cones, impactors and screens we can offer the right solution for the quarrying and recycling industries.

OFFERING YOU:
• Pre Shipment Inspection (PSI).
• Shipping and transportation requirements to any port worldwide.
• Engineers available for installation and training.
• Full machinery refurbishment service.
• Spares and service back up.

We can also offer a full selection of spare parts from all manufacturers, which include Powerscreen equipment. Additionally, we also have a used range of loading shovels, excavators, dump trucks and mini diggers.

MANUFACTURERS
• Duo
• Extec
• Finlay
• Komatsu
• McCloskey
• Metso
• Powerscreen
• Sandvik
• Tesab

HEALTH & SAFETY CENTRE

STOP, THINK, ASSESS RISKS

Health & Safety is our number one priority

Operations - Site set-up and guidance for management
Compliance monitoring
Accident investigations
Training

On going investment to constantly improve our health and safety culture.
Director level support

IN-HOUSE TRAINING

Externally Accredited Courses:
- IOSH Managing Safely
- MPQC SPA Quarry Passport

Other Courses:
- Emergency First Aid at work
- Manual handling
- Fire Awareness
- COSHH

HSE - IMPLEMENTATIONS

Display screen equipment

Supervisor declaration of understanding of role and responsibilities per site

Operator acknowledgement of appropriate “toolbox talks” – via daily task allocation sheet.

NEAR HIT REPORTING BOOKLET

We take near hits very seriously and report them in this Near Hit book. It has been designed as an easy way of reporting what most of us do, identifying hazards and controlling them. We concentrate our efforts on reporting and managing any potential unsafe conditions or acts to ensure it doesn’t become the next incident or accident.
All our installations come with a recommended spares list to help you minimise your downtime, we have a dedicated spares division supplying genuine Terex, Powerscreen and Doosan parts to support your business.

Utilising our manufacturing facility, we can fabricate and fit bespoke wear parts, chutes, structures, pipework and more.

Our parts system records all the parts you order, so reordering is problem free and just a phone call away.

parts@duopl.com

We have a highly experienced team of mobile service engineers able to provide breakdown response as and when you need it.

Proactive preventative maintenance contracts tailored to your operation are available.
