

# Short courses for Industry

## 2026 Calendar

**UNIVERSITY OF  
GREENWICH**

*The Wolfson Centre  
for Bulk Solids Handling Technology*

[www.bulksolids.com](http://www.bulksolids.com)

27/28 January online / afternoon sessions

### **Caking And Lump Formation in Powders and Bulk Materials**

10/11 February online/afternoon sessions

### **Undesired Deblending and Separation in Processes and Equipment**

24 February on campus / full day

### **Rotary Valves; Design, Selection and Operational Issues**

16 - 19 March on campus / 10am - 3.30pm

**Workshop Week:** one day each

Understanding Powder Flow / Characterisation Techniques / Pneumatic Conveying / Dust Containment and Filtration

21 - 23 April on campus / full day optional workshop

### **Storage and Discharge of Powders and Bulk Materials**

13 - 14 May on campus / full day

### **Pneumatic Conveying System Design** (advanced course)

2 - 3 June on campus / full day hand's-on

### **Troubleshooting and Commissioning Pneumatic Conveying Systems**

20 - 21 October on campus / full day workshop included

### **Measurement of the Properties and Bulk Behaviour of Particulate Materials**

17 - 18 November Nether Langwith, Notts

### **Pneumatic Conveying of Bulk Materials**

1 - 2 December on campus / full day

### **Pneumatic Conveying System Design** (advanced course)

**Campus address:** University of Greenwich, Wolfson Centre for Bulk Solids Handling Technology, Central Avenue, Chatham Maritime, Kent ME4 4TB UK

If these courses do not suit your requirements, please call us to discuss an In-Company course; select your own modules for delivery at a time to suit operations.
